StatFox NFL Power Rating Lines - Week 10

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox NFL Outplay Factor Rating Lines - Week 10

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

GAME BREAKDOWN: The Browns have won four of their last five games SU. Last week, they won 22-17 in Tampa Bay but failed to cover. Cincinnati, meanwhile, beat the Jaguars 33-23 at home as 10-point favorites. In eight meetings between these teams since the start of the 2010 season, only once has the road team come away with an ATS victory. The Bengals are 9-1 SU (5-4-1 ATS) over their last 10 home games against the Browns. TE Jordan Cameron (concussion) is questionable for Cleveland while RB Giovani Bernard (hip) is expected to be a game-time call for the Bengals.

GAME BREAKDOWN: The Falcons are coming off of their bye week to face a Buccaneers team that lost its fourth straight game with a 22-17 defeat in Cleveland on Sunday. In Week 3 this season, these teams met on a Thursday night and the Falcons demolished the Bucs 56-14 as seven-point favorites. Atlanta quarterback Matt Ryan threw for 286 yards, three touchdowns and no picks in that victory. The home team is 5-1-1 ATS in this head-to-head series since the start of the 2011 season—Atlanta's last ATS win in Tampa Bay was a 28-24 victory as a three-point favorite in 2010.

These teams last met in September 2011, when the Titans won at home 26-13 as 5.5-point underdogs. The Titans have won four of the last six games SU against the Ravens, covering in five of those contests. The Ravens will likely do what they can to make Tennessee rookie QB Zach Mettenberger uncomfortable in the pocket. Baltimore QB Joe Flacco could be in for a big game against a Titans defense that is allowing 24.5 PPG over their last two games against Ryan Fitzpatrick and Colt McCoy.

Last season, the Saints beat the 49ers 23-20 in New Orleans at 3.5-point favorites. Drew Brees threw for 305 yards with a touchdown and one interception in that game. Colin Kaepernick threw for two touchdowns, but just 127 yards. Three New Orleans turnovers helped keep the game so close. The 49ers' 4-0 ATS record against the Saints since the start of the 2010 season includes ATS wins in New Orleans each of the past two Novembers. Saints RB Pierre Thomas (ribs) is questionable.

GAME BREAKDOWN: The Cowboys have dropped two straight after a 28-17 home loss against the Cardinals. The Jaguars, meanwhile, lost 33-23 as a 10-point underdog in Cincinnati. Although Dallas quarterback Tony Romo (back) did make the trip to London, he remains questionable for this game. That could mean another start for Brandon Weeden, who threw for just 183 yards with a touchdown and two interceptions in the loss to Arizona. Weeden would, however, play against a defense that is allowing 263.4 passing yards per game, which ranks 25th in the NFL. Dallas LB Rolando McClain (knee) is also questionable in this one.

GAME BREAKDOWN: While Miami extended its winning streak to three with an impressive 37-0 pounding of the Chargers at home on Sunday, Detroit won three straight before its Week 9 bye. Detroit quarterback Matt Stafford leads an offense that ranks ninth in the NFL in average number of passing yards per game despite the fact that star wideout Calvin Johnson hasn't been healthy since Week 3. Although Johnson (ankle) is expected to return for this one, the Lions will be tested by a Miami defense that ranks second in the NFL in passing defense. RB Lamar Miller (shoulder) is questionable for Miami.

StatFox Dave

StatFox Dave is one of the original four founders of StatFox and over the years has been renowned for his handicapping prowess in all sports. Dave was especially strong in the college sports last season, posting a 55% ATS mark (38-31-2) in 2013 CFB Best Bets. This included a hefty 77% ATS record (17-5-1) on college football games that were not part of the marquee games grid above. Dave then went 62% ATS (70-43-2) in CBB Best Bets. Dave is 60% ATS (18-12) in NFL Best Bets since Week 3, and also 61% ATS (68-43-1) in CFB marquee grid games since Week 4.

StatFox Gary

StatFox Gary joined the StatFox and the Platinum Sheet staff prior to the 2010 football season, and subscribers were certainly happy he did: He proceeded to post a 55% success rate on NFL Best Bets in his "rookie" season. Gary finished strong in NFL Best Bets last season as well, going 67% ATS (16-8-2) after Week 9. He did the same thing in college hoops Best Bets with a 63% ATS mark (30-18) after Feb. 5 to finish 57% ATS (64-49-2) in CBB Best Bets for the season. Gary is 8-4 ATS in CFB Best Bets since Week 7 and 58% ATS (50-36) in NFL picks since Week 4.

StatFox Scott

StatFox Scott serves as Managing Editor for StatFox, Platinum Sheet and the Edge Football Preview Guide. Scott really finished strong last season in NFL Best Bets, as he recorded a 59% ATS mark (33-23-2) after Week 3, and was outstanding on NFL totals all year at 56% (40-31), including a perfect 5-0 in the postseason games. His college basketball season also represented a huge finish, as Scott was 64% ATS (25-14-3) in college hoops Best Bets after Feb. 14. Since Week 3, Scott is 62% ATS (63-39) in all NFL picks, including 71% ATS (20-8) in Best Bets.

StatFox Brian

A featured writer on StatFox.com and for Platinum Sheet, StatFox Brian has yet to suffer a losing season of Platinum Sheet Best Bets in either college football or NFL since coming on board in 2010. Last year marked Brian's second straight 60% ATS (41-27-6) season record in NFL Best Bets, followed by an epic college hoops season. Brian finished with a stellar 69% ATS record (76-34-5) on CBB Best Bets for the season, including an eye-popping 77% ATS record (44-13-4) after Jan. 17. Brian is 70% (19-8) in NFL Totals, and 56% ATS (14-11) in NFL Best Bets since Week 3.

StatFox Forecaster

By weighing several key factors, including recent statistical averages, schedule strength and home-field advantage, the StatFox Forecaster has proven to be an extremely successful long-term handicapping tool. It's most accurate once a season is underway, as evident by winning records in all four sports' featured Platinum Sheet games last year. The Forecaster correctly predicted the ATS winner for 59% (149-105-12) of all NFL games, 57% (151-114-8) of all CFB games, 53% (207-181-12) of all NBA games and 51% (189-183-11) in college basketball last season.

StatFox College Football Power Rating Lines - Week 11

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 11

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.
