Statfox NFL Outplay Factor Rating Lines - Week 7

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

statfox TOP-RATED NFL & CFB SUPER SITUATIONS

The Super Situations are one of the most popular sections at FoxSheets.com. Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels relative to the spread. These systems are tabulated for all teams and are not team-specific. The principle is that teams fall into patterns regardless of personnel—good passing teams, teams seeking revenge, cold teams on a losing streak, etc. Over time, these performance patterns tend to repeat themselves. The star rating is a proprietary calculation used to judge the strength of a situation's past performance record.

- **Play Against -** Favorites (BALTIMORE) that are outscoring opponents by 10 or more points per game when coming off back-to-back games of allowing 14 or fewer points.

- **The situation's record** is 34-10 over the last 10 seasons (77.3%, +23.0 units).

RATING = ✱ ✱ ✱

- **Play On -** Home favorites of 3½ to 10 points (PHILADELPHIA) after a game where they committed no turnovers against opponent after a game with a turnover margin of -3 or worse.

- **The situation's record** is 24-5 over the last 10 seasons (82.8%, +18.5 units).

RATING = ✱ ✱ ✱

- **Play Against -** Underdogs of 3½ to 10 points (NEW YORK GIANTS) - after a game where they forced no turnovers against opponent after 4 consecutive games where they committed fewer than 2 turnovers.

- **The situation's record** is 43-15 since 1983 (74.1%, +26.5 units).

RATING = ✱ ✱ ✱

- **Play On -** Road underdogs of between 3½ and 10 points (MEMPHIS, CINCINNATI) after having averaged 525 or more total yards per game over their previous two games.

- **The situation's record** is 50-14 over the last 5 seasons (78.1%, +34.6 units).

RATING = ✱ ✱ ✱ ✱

- **Play On -** Favorites of between 10½ and 21 points (SOUTHERN MISS) that have a win percentage between 40% and 49% and are coming off back-to-back straight-up losses.

- **The situation's record** is 24-2 over the last 10 seasons (92.3%, +21.8 units).

RATING = ✱ ✱ ✱ ✱

- **Play On -** Road favorites (GEORGIA SOUTHERN) off back-to-back games of allowing 14 points or fewer vs. an opponent coming off a game in which it allowed 37 or more points.

- **The situation's record** is 47-13 over the last 10 seasons (78.3%, +32.7 units).

Unlike the StatFox Super Situations, all trend records listed apply to the team in question. These trends are great indicators of how teams react to certain situations—coming off a close win, against division opponents, giving up a high number of passing yards, etc. The star rating is a proprietary calculation used to judge the strength of a trend's past performance record.

StatFox College Football Power Rating Lines - Week 8

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 8

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:

OL - Opening Line

OF - StatFox Outplay Factor Rating - adjusted for home field advantage.
