StatFox NFL Power Rating Lines - Week 2

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

 $^{^{\}star\star}\,\text{The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a}$ quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

StatFox College Football Power Rating Lines - Week 3

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 3

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:

OL - Opening Line

OF - StatFox Outplay Factor Rating - adjusted for home field advantage.

Sstatfox super situations

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

- Play On Road underdogs (STANFORD) - average offensive team (4.8 to 5.6 YPP) against a good defense (4.2 to 4.8 YPP), after allowing 225 or less total yards in their previous game.
- The situation's record is 27-4 over the last 10 seasons (87.1%, +22.6 units).

RATING = * * * *

- Play On Road underdogs of 3.5 to 10 points (C MICHIGAN, AUBURN, E CAROLINA) - in the first month of the season, after closing out last season with 2 or more straight losses, team that had a winning record last season.
- The situation's record is 35-8 since 1992 (81.4%, +26.2 units).

RATING = ****

- Play Against Home team (E MICHIGAN, MIAMI) - in first month of season, after closing out last season with 4 or more straight losses, with 5 offensive starters returning.
- The situation's record is 26-4 over the last 10 seasons (86.7%, +21.6 units).

StatFox **DAVE**Lock of the Week:

New York Jets -3

I'm going to lay the points here and back the Jets as a small home favorite. The Browns will be unable to run the ball against a staunch Jets run defense, and if that happens, the Jets are 49-31 ATS (+14.9 Units) when they allow 75 to 100 rushing yards since 1992. Jets prevail by at least a touchdown here.

StatFox GARY Lock of the Week: Arizona -21/2

The Cardinals are 10-2 SU at home with a healthy Carson Palmer the past two seasons. The Saints are 8-10 SU on the road over the last two years; the four-game road win streak they're currently on included late-season wins over hapless Chicago and Tampa last year, and they come into this one with Drew Brees' arm strength in question, their best receiver (Jimmy Graham) gone and a rebuilt defense that lost its best pass rusher and will be without its top corner. Arizona should be giving twice as many points as they are.

StatFox **SCOTT**Lock of the Week:

New York Jets -3

The Jets have opened each of the past four seasons with a home victory, and I expect them to make it five straight with relative ease. With Gang Green having improved its secondary significantly, I don't see how a Cleveland passing offense devoid of playmakers is going to be able to move the ball through the air. And with the status of Browns rookie RB Duke Johnson in doubt because of a concussion, the only back on the Cleveland roster at the start of the week was the mediocre Isaiah Crowell. The Jets offense, meanwhile, should be improved with RB Chris Ivory coming off a solid preseason and game-managing QB Ryan Fitzpatrick providing the kind of steady play the team lacked when Geno Smith was under center. A final score in the neighborhood of 24-13 seems right for this one.

Statfox Situational Team Power Trends

The StatFox Situational Team Power Trends uncover certain situations where a team outperforms or underperforms their normal level of play. Unlike the StatFox Super Situations, all trend records listed apply to the team in question. These trends are great indicators of how teams react to certain situations (i.e. coming off a close win, against division opponents, after a loss giving up a high number passing yards, etc.)
