StatFox NFL Power Rating Lines - Week 3

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox NFL Outplay Factor Rating Lines - Week 3

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

statfox SUPER SITUATIONS

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

• **Play Against -** Home teams (HOUSTON) - good passing team from last season - had a completion pct of 60% or better, after gaining 4.5 or less passing yards/attempt in last game.

• **The situation's record** is 29-6 since 1983 (82.9%, +22.4 units).

RATING = ✳ ✳ ✳

• **Play Against -** Road teams (PITTSBURGH) - after a win by 21 or more points against opponent after scoring 3 points or less in the first half last game.

• **The situation's record** is 36-11 over the last 10 seasons (76.6%, +23.9 units).

RATING = ✳ ✳ ✳

• **Play On-** Home favorites (BALTIMORE) - good team from last season - outscored opponents by 4 or more points/game, after scoring 30 points or more last game.

• **The situation's record** is 38-13 since 1983 (74.5%, +23.7 units).

RATING = ✳ ✳ ✳

StatFox College Football Power Rating Lines - Week 4

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:
OL - Opening Line
PR - StatFox Power Rating - adjusted for home field advantage.
PRL - Calculated Power Rating Line

Statfox College Football Outplay Factor Rating Lines - Week 4

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

StatFox DAVE
Lock of the Week:
Pittsburgh -6½

I'm going to lay the points here and back Ben Roethlisberger and company. San Francisco is coming off a shortened week, and it also helps that Steelers under head coach Mike Tomlin are 14-5 ATS in a home game where the total is between 42½ and 49 points.

StatFox BRIAN
Lock of the Week:
Cincinnati -3½

I am surprised this spread isn't closer to a touchdown, and so is the StatFox Outplay Factor that has the Bengals at -9. Cincy head coach Marvin Lewis thrives early in the season (24-14 ATS in September with Bengals), and also with a small spread, going 47-35 ATS when the line is +3 to -3. Lewis has also been able to build momentum with his club, posting a stellar 21-7 ATS mark after leading the previous game by 14+ points. The Chargers had a nice comeback in Week 1, but are still 3-9 ATS overall in the past dozen games, and Cincinnati has the personnel to handle San Diego's receivers, holding Oakland to 4.3 yards per pass last week. Bengals win by 10 here.

StatFox SCOTT
Lock of the Week:
Stanford +10

Road underdogs are 31-8-1 ATS after having allowed fewer than 10 points in their previous game, when facing an opponent coming off a game in which it allowed three or fewer first-half points. The last time a game between these rivals was decided by more than eight points was six matchups ago, when Stanford won 55-21 at USC in 2009. The Cardinal play defense too well for this one to be decided by double-digits, and I wouldn't be shocked to see Stanford win this one outright.

StatFox BRIAN
Lock of the Week:
Colorado St +4

I'm not sure why the Rams aren't favored in this neutral-site matchup in Denver. CSU cruised past the Buffs last year (31-17). Since losing to Colorado to open the 2013 season, the Rams are 10-4 ATS in non-home games. They are also 11-2 ATS in non-conference games in the past three years. On the flip side, the Buffs are 2-10 ATS since 1992 in non-home games after a rare dominating performance like they had last week (34+ minutes TOP, 24+ first downs). All CSU has to do is hold onto the football (9 TO already this year), and it should win by two touchdowns over this inferior opponent that lost outright to FBS laughing stock Hawaii two weeks ago.

statfox SUPER SITUATIONS

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

• **Play Against -** Road favorites of 3.5 to 10 points (TCU, NAVY, OLD DOMINION) - in the first month of the season, after closing out last season strong with 3 or more straight wins.

• **The situation's record** is 50-15 since 1992 (76.9%, +33.5 units).

RATING = ✳✳✳✳

• **Play Against -** Home teams where the line is +3 to -3 (WASHINGTON) - off a home win, good team, winning 60-80% or more of their games on the season.

• **The situation's record** is 28-4 over the last 5 seasons (87.5%, +23.6 units).

RATING = ✳✳✳✳

• **Play On -** Home favorites of 21.5 to 31 points (OLE MISS) - quick starting offensive team - scoring 16+ PPG in the first half, after scoring 42 points or more in 2 straight games.

• **The situation's record** is 34-8 over the last 10 seasons (81.0%, +25.2 units).
